DETAILED ACTION

Response to Amendment

In light of the Applicant's amendment to claim 1 on January 22, 2004, the objection to claims 1 and 2 in the Office Action on October 31, 2003 has been withdrawn.

Response to Arguments

In the Applicant's response on January 22, 2004, the Applicant argues with respect to claim 1, that the previously indicated allowable subject matter from claim 29 has been incorporated into claim 1, thereby overcoming the anticipation by Kuo et al (pages 5 – 6). This argument has been fully considered and found to be persuasive. The Examiner agrees that claim 1 is no longer anticipated by Kuo et al or Kato et al.

The rejection of claims 1 and 2 under 35 U.S.C. 102(b) as being anticipated by Kato et al in the Office Action on October 31, 2003 has been withdrawn.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1 and 2 are allowable over the prior art for at least the reason the prior art fails to teach and/or suggest the first mirror segment of the optical interconnection circuit board being connected electrically to the electric circuit as set forth in the claimed combination.

Claims 27, 28, 30, and 31 are allowable over the prior art for at least the reason the prior art fails to teach and/or suggest a method of manufacturing an optical interconnection circuit board including the steps of forming a first mask layer with a first opening; forming a second mask layer on the first mask layer with a second opening; wherein the second opening is smaller than the first opening and is aligned with the first opening; and depositing a mirror layer through the first and second opening to form a mirror as set forth in the claimed combination.

Art Unit: 2872

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
